INTRODUCING

RELY R8

CHERY COMMERCIAL VEHICLE UAE, EXCLUSIVELY DISTRIBUTED BY AL GHURAIR MOBILITY.

Backed by Chery Commercial Vehicle UAE and supported locally by Al Ghurair Mobility, the RELY R8 is a robust, capable, and versatile mid-size pickup engineered for both fleet operations and individual owners, combining strong performance with dependable aftersales support to deliver long-term reliability and peace of mind.

WHEN YOUR DAY ASKS FOR MORE, YOUR PICKUP SHOULD DELIVER IT.

Tough enough for long days, smart enough for the unexpected, and available in petrol or diesel. This is capability that refuses to settle for ordinary.

EXTERIOR DESIGN

BODY

Engineered for durability, the RELY pickup features a high-strength steel body structure, reinforced bumpers, and robust materials designed to withstand the toughest conditions.

ACCESS AND UTILITY

Side steps and a rear bumper step provide easier access to both the cabin and the cargo bed. A durable cargo bed with a spray-in bedliner helps protect against wear from heavy use, while integrated tie-down points and roof rails expand carrying options for tools, equipment, and materials.

GROUND CLEARANCE

Standard and Comfort trims feature 17-inch Alloy wheels, while the Limited trim is equipped with 18-inch Alloys. Combined with generous ground clearance for off-road driving and a long wheelbase that provides enhanced stability even when fully loaded.

VISIBILITY AND LIGHTING

All RELY pickup models come standard with LED headlights, taillights, and daytime running lights, delivering brighter, more efficient illumination for improved visibility and a modern road presence.

INTERIOR DESIGN

REMOTE CONVENIENCE

Remote engine start and window control via the key fob, available across all trims, allow you to cool the cabin before entering, enhancing everyday convenience and improving comfort during the hot summer.

SEATING

Standard and Comfort trims feature durable fabric seating with manual adjustment, while the range-topping Limited trim upgrades to leather upholstery, ventilated front seats, and a 6-way power-adjustable driver's seat. Across all trims, the rear seats fold up to provide added storage space and everyday practicality.

INFOTAINMENT AND CONNECTIVITY

The RELY pickup features a modern infotainment system, with a 12.3-inch display and 4-speaker audio on the Comfort trim, and a larger 15.6-inch display with 6 speakers on the Limited for a more immersive experience. Apple CarPlay and Android Auto are standard from Comfort grade and above, while the Limited also adds a wireless phone charger.

AUXILIARY SWITCHES

Factory-installed auxiliary power switches on the Limited provide, dedicated, fused circuits to power and control added accessories from the cabin. Pre-wired for easy connection of winches, or air compressors, they eliminate the equipment like off-road lights, need for complex wiring and help protect the main electrical system.

TECHNOLOGY

CLEAR VISIBILITY

Rain-sensing wipers automatically detect rainfall and adjust wiping speed accordingly, maintaining clear visibility with minimal driver input for added safety and convenience.

INTELLIGENT LIGHTING

Adaptive LED headlights and Intelligent High Beam Assist (HBA) automatically optimise lighting for clearer night-time driving with reduced glare.

*Only on Limited trim.

ADVANCED DRIVER DISPLAY

A digital colour TFT driver information display presents key driving data in a clear, modern format for quick readability, helping the driver stay informed and focused on the road.

360 DEGREE CAMERA

The 360° surround-view camera provides a clear, all-around view of the vehicle, supporting confident maneuvering in tight spaces by reducing blind spots and enhancing off-road visibility to help avoid obstacles.

SAFETY

ADVANCE DRIVER ASSITANCE SYSTEMS

RELY sets a new benchmark in mid-size pickup safety, offering a comprehensive suite of intelligent driver-assistance features engineered to enhance driver awareness and control:

Forward Collision Warning (FCW)
Monitors the distance to vehicles ahead and provides visual and audible alerts when a potential collision risk is detected, helping drivers respond earlier.

Autonomous Emergency Braking (AEB)
Automatically applies braking when a front collision risk is identified and the driver does not react in time, supporting accident mitigation in critical situations.

Adaptive Cruise Control (ACC)
Maintains a preset speed while automatically adjusting distance from the vehicle ahead, reducing driver workload during highway and long-distance driving.

Turn Assist
Turn Assist supports safer turning by monitoring surroundings for traffic and pedestrians, providing warnings and braking support when needed to help prevent collisions.

Lane Change Assist (LCA)
Detects vehicles in adjacent lanes and alerts the driver when a lane change may be unsafe, improving situational awareness in multi-lane traffic.

Lane Departure Warning (LDW)
Provides alerts when the vehicle unintentionally drifts out of its lane, helping reduce the risk of unintended lane departures.

Lane Keep Assist (LKA)
Applies gentle steering input to help keep the vehicle centred within its lane when lane markings are detected, supporting stable and safe driving.

Traffic Jam Assist
Traffic Jam Assist helps reduce driver effort in slow, stop-and-go conditions by supporting speed and lane guidance, enhancing comfort and confidence during congested commuting.

*Only on Limited trim.

WITH YOU FOR A SAFER JOURNEY.

TERRAIN MANAGEMENT AND OFF-ROAD SYSTEMS

Designed to confidently conquer any terrain in demanding environments, the RELY R8 integrates advanced terrain management systems that optimise power delivery and vehicle control to suit changing road conditions maintaining traction, stability, and driver confidence on and off-road.

- **Terrain Management System**
  Allows the driver to select driving modes suited to different surfaces, optimising throttle response, traction control, and power delivery for improved stability.
- **Differential Lock**
  Front and Rear differential lock distributes power evenly between wheels on the same axle when traction is limited, helping the vehicle maintain forward movement on loose or slippery surfaces.
- **Crawl Control**
  Automatically manages throttle and braking at low speeds, enabling controlled progress over steep, uneven or rocky terrain.
- **Off-Road Meter**
  Displays real-time vehicle data such as pitch, roll, and steering angle, helping drivers better understand vehicle positioning and terrain conditions during off-road driving.
- **Transparent Chassis View**
  Uses camera technology to provide a virtual view beneath the vehicle, helping drivers identify obstacles and navigate tight or low-visibility environments with greater precision.

*Only on Limited trim.

POWERTRAIN AND TRANSMISION

The RELY R8 is available with a choice of petrol or diesel powertrains, paired with manual or automatic transmissions and offered in 2WD or 4WD configurations to suit a wide range of operating requirements and driving conditions.

2.4L PETROL ENGINE

The reliable and fuel-efficient 2.4L 4-Cylinder petrol engine produces 158-Hp and 230-Nm torque. It is paired with a 5-speed manual transmission and available in both 2WD and 4WD configurations.

2.3L TURBO DIESEL ENGINE

The 2.3L Turbocharged diesel engine produces 161-Hp and 420-Nm torque, engineered for high-load and demanding applications. Available with a 6-speed manual transmission in both 2WD and 4WD variants, while an 8-speed automatic transmission is offered exclusively on the 4WD Limited Diesel trim.
